

# Enkay Managed Services

We can manage your BizTalk environments for you!

## What are Enkay Managed Services?

We offer BizTalk Server infrastructure, application monitoring, development support, deployment and management services.

Using a combination of Microsoft Certified technical experts, automation, and Enkay BPA (BizTalk Performance Assistant), we proactively monitor and maintain your BizTalk Server environments so that we can detect and resolve issues before your customers see them. We offer 24x7 production support using a global team at very low cost.

## What we do?

Proactively monitor your systems

Do Performance Benchmark testing

Provide Daily Health Check Reports

Conduct Architectural Assessments to improve performance

Provide Operational Analytics via Enkay BPA and PowerBI dashboards

Dedicated Toll Free number for support calls

Provide custom PowerShell scripts for managing your infrastructure

## Why Enkay?

We are a certified **Microsoft Gold Partner** for Application Integration.

Our team members are well trained as BizTalk developers and administrators, and have experience in all aspects of application life cycle management.

As integration specialists, we have a proven record of successfully helping our customers reduce operational costs, improve efficiency and meet uptime SLAs by recommending changes based on best practices that we have curated over multiple successful engagements.

Our services will allow you to measure, control, and meet your business SLAs ensuring IT exceeds customer expectations.

*"We currently have 24hr support with Enkay on issues like these. Once we got them involved they we were able to get it resolved right away- Sr. Manager, Operations, IT at a large Midwest Insurance Company*
